The millions who read the great papers are vague abstractions,

spread all over the world. The Russian press quotes the great pa-pers, as does the press of every nation of the world. The world is a mess today.

Perhaps the true greatness of our country and of our way of life is not all confined to the great skyscrapers of our population cen-ters. When America feeds the world the voices come from the skyscrapers, but the grain comes from the fields of Medina County.

The thousands who read The Anvil Herald are not abstractions, they are folks who stop in often to tell us they like this, or they don't like that. They come in to run classified ads to trade a sow or an old bedstead. The abstractions are not in the country, but

So on the occasion of National Newspaper Week, The Anvil Herald again rededicates its columns to telling you, our readers, about you, the people of America. We

shall continue to talk editorially, at times, of the Russian people. They are real. But not of Redsthey are abstractions. We shall continue to refuse to talk of war, except to denounce it, because being ordinary people ourselves, we believe that all ordinary people of the world are brothers in hating

If you want news of the world's abstractions, the things that make war and dissension and misery, you will find that news in the papers that are great in terms of circulation figures. But right here in Medina County you will find a paper that fights for you and the realities you live by. Here you will find a paper that never fidgets uneasily in the presence famous, because we are accustomed to greatness. You, our readers, are the American people. You are the great.

For these reasons, we have one theory for the success of the United Nations: That they forsake all others, and subscribe to The

Hillbilly Hop At Vet Hall Saturday

Jimmy Revar ! Band To Play

Saturday night, Oct. 4, will see the third dance of the season in Hondo's new Legion Hall sponsored by Hal Jones Post No. 128 American Legion and Post 3891 Veterans of Foreign Wars. On the bandstand for the four-hour dance will be Jimmy Revard and His Oklahoma Playboys who will have a different style of music than has been featured at the other two dances, as this group plays hillbilly pieces.

Admission to the dance beginning at 9 p.m. is \$1.20 for men with girls being allowed free entrance and there'll be plenty of refreshments on sale. Profits on the dance will go into the fund which is paying off cost and up-keep of the big hall.

The next big dance has been scheduled by Hal Jones Post and V.F.W. for Armistice night, Nov. 11, falling on Tuesday. Signed for this affair is Bill Cornelson and his orchestra, famous in Central and South Texas for their danceable, rhythmic style.

250 Turn Out For First **County Concert**

Approximately 250 Medina County music lovers attended the opening performance of the Medina County Concert Assn. at the Hondo High School auditorium Tuesday night where the widely-known pianist, Walter Robert, made his first appearance here.

Rev. H. Ellis Thomas, chairman of the association, reported the crowd "well pleased" with the performance, and he anticipates a sell out for the next show of the series when famed Texas story teller Boyce House will replace Stephen Wilhelm in stories about Texas and Texas people. Wilhelm has been withdrawn from the sebecause of cancer of the

The Boyce House performance will be Nov. 10, first of two performances next month. On Nov. 25 Eloise McDonald and Gabor Carelli, soloists, will be presented.

100 Stitches After Knifing; Recovering

Roldofo Martinez was reported recovering this week and Merro-jildo Moralez is waiting for the grand jury, booked with assault with intent to murder, following the worst cutting short of killing in recent local history.

Over 100 stitches were necessary to patch up Martinez whe suffered from slashes in the neck, arms,torso, and one wrist which was nearly cut off.

According to reports, the two had argued in a minor way, had settled their dispute and Martinez was sitting quietly drinking a bottle of beer. Moralez suddenly walked up behind him and started hacking. The victim escaped into the street where he found deputies Hitzfelder and Poe, and Hitzfelder rushed him to the hospital while Poe tracked down and arrested the attacker.

Arrange Now For Additional **Paving-Webster**

With much of the over 15 miles of paving in Hondo already completed and the rest scheduled to be finished within a month, Sec .-Mgr. Allen Webster of the Hondo Chamber of Commerce this week urged all persons who wish additional paving to contact him as soon as possible.

The regular paving and retopping consists of an 18-foot wide strip down the middle of the road. Many businessmen and home owners have already indicated that they would like additional paving curb to curb, or at least over to where their curbs will be if they ever want to put them in.

Costs for such additional paying would amount to 35 cents per square yard for a single coat of topping, and double topping would cost 45 cents per square yard.

Full details can be obtained from Webster at the chamber of-

V.F.W. Auxiliary **Installation At** LaCoste Oct. 14

LACOSTE-Auxiliary Post No. 8134, Veterans of Foreign Wars, will officially become the first V.F.W. auxiliary post in the entire district on Tuesday, Oct. 14, when a delegation from San Antonio journeys to LaCoste for the first installation of officers.

Included in the delegation will be Mrs. Nell M. Moody, Chief of Stafff of the Department of Texas. Mrs. Irene Salzman will be first commander of the group, and requests any county ladies interested in joining to attend the installation if they are eligible.

Parolee Makes Rape Attempt

Private hearing was conducted in Hondo this week by Juvenile Court Judge Arthur Rothe for a 14-year-old colored boy who last week assaulted a Hondo woman allegedly with intent to rape.

The boy, according to records, was born in 1933 and was currently on parole from the re-formatory where he had been sent in 1945 on the same charge. He was only 12 at the time of the initial charge.

Assault took place a week ago and the woman escaped with only minor bruises when her screams brought help. The assailant fled and was discovered last week end through the sleuthing of Night Watchman McClaugherty in

Investment in the Hondo branch of Alamo Pottery, Inc., quoted at a quarter of a million dollars within the next six months, will eventually amount to \$1,000,000 if business continues to hold up, according to a press statement last week by W. H. Wallingford, president of the company.

The pottery company moved into Hondo last week with the purchase of about 100 acres of land and 66 buildings comprising the commercial area of the former Hondo Army Air Field. Bringing with them a pay roll of between \$40,000 and \$50,000 monthly, the outfit will employ over 225 workers most of which will be recruited from Medina County when the plant is ready to operate.

According to company Sales Manager Goldfarb, only highly skilled, key men will move to Hondo with the plant. Other skilled jobs will be performed by workers still to be hired who will train at the San Antonio plant while the Hondo plant is being

Alamo Pottery was started by Wallingford after he had made a fortune selling autos in Panama and had moved to San Antonio to retire. He became interested in the manufacture of art tile, decorative pieces, vases and other ceramics products organized Alamo Pottery, Inc., and now a high percentage of the company's output is plumbing fixtures.

Terrific demand for his products caused Wallingford to look around for some way to expand, the San Antonio plant being limited by the railroad tracks where it is located across from old Camp Normoyle in the southwest part of the city. In the first nine months of this year the company sold over \$1,000,000 worth of plumbing fixtures and, running at capacity, salesmen had to be called in because orders could not be filled. Rather than limit production, the company decided to expand and Hondo offered the perfect facili-

The San Antonio plant represents an investment of about \$500,000. Unless there is a slump in business the Hondo plant will soon outgrow its San Antonio parent and become double that size, according to Wallingford.

DEVINE-The sight conserva-tion committee of the Medina Valley Lions Club was instructed at the last meeting to see that no children in the jurisdiction of the club are permitted to suffer for lack of glasses. This meeting was held at Lytle with President Henry Moss of Devine presiding, and Lion M. B. Tilley serving as tail twister in the absence of L. C.

B. O. Stratton being the Nth person to shake the hand of Lion Johnnie Kenagy, Sr., Elmer for the evening, was awarded atten-dance prize, furnished by Lion Jack Klingeman of Devine.

Lion Rev. Ezzell, pastor of the Methodist Church of Devine, was received into the club on a transfer from the Nixon organization. Lion Rev. Walton, Methodist pastor in Lytle, passed around cigars in celebration of a new son. Medina Valley Lions Club claims a record with cigars from a proud papa at every meeting this year. Lytle's P.-T.A. was given a rising vote of thanks for the baked chicken dinner.

SWING OF TEXAS MARKETS

Farm commodities moved to generally unsettled markets last week, with moderate to sharp declines on many products, according to the Production and Marketing Administration, U. S. Department of Arriculture.

Wheat rallied at southwest mar-kets for gains of around 12 cents per bushel, but corn sank steadily. White corn losses total about 35 cents, to close Friday at \$2.50 for No. 2, while yellow dropped 15 to 20 cents to sell at \$2.35 at Fort Worth and Galveston. Oats, barley and sorghum grains netted little

Rice demand continued %1 w at prevailing prices last week. Principal producing areas escaped major hurricane damage. Grain product feeds declined, but others sold unchanged to higher. Hay prices advanced \$2 per ton. Peanuts moved at government support prices. Texas fine wools sold actively at 42 to 52 cents per grease

Spot cotton prices declined from \$4 to \$6 per bale during the week, and there was a further weakening of the basis. Demand was good for Army Purchase qualities but only fair for domestic purchases. Harvesting made rapid progress.

Cattle closed the week generally 50 cents to \$1 or more lower. Calves felt the heaviest pressure. Good calves sold at \$17.50 to \$19.50 at Houston, and choice heavy calves moved at \$21 to \$23 at Oklahoma City. Good and choice calves turned late in the week at mostly \$17 to \$19 at San Antonio, \$16.50 to \$19 at Fort Worth,

Mr. and Mrrs. George Jungman of LaCoste are the proud parents of a baby daughter, born at the Castroville Clinic Friday, Sept. 26.

Mr. and Mrs. Don C. Roger and family of San Antonio spent Sunday with Mrs. Henry Schott and son, Henry.

Mr. and Mrs. J. E. Blackmon and daughter, Ann, and Mr. and Mrs. August Haass and family, all of San Antonio, visited homefolks

here Sunday. Despite the small crowd which attended the annual Firemen's and American Legion celebration here, Sunday, the day's receipts was a very nice sum of money towards the new building for the housing of the new fire truck and the Firemen's and American Legion meetings. A very nice sum of cash donations was also received The afternoon was spent on various amusements.

For week at a top of \$27.50, Fort Worth and Oklahoma City at \$28, Wienita at \$27.75, and Denver at \$28.75. Sows brought \$24 to \$25.50 at Fort Worth and Oklahoma City, and \$23 to \$26 elsewhere.

Slaughter lamb prices dropped \$1 to \$2 per hundred at most southwest markets last week, while aged sheep and feeder lambs fell mainly 50 cents. San Antonio moved common and medium spring lambs at \$16 to \$19, and Worth sold medium to good kinds at \$19 to \$21. Good and choice grades brought \$21 to \$22.50 else-

Liberal offerings of most seasonal fruits and vegetables moved rather slowly at Fort Worth where lettuce and celery met dull demand, but caboage held steady. and onions and cauliflower sold firm to higher. Carrots and cantaloupes brought better prices at Kansas City, while tomatoes and sweet potato's stayed the same. San Luis Valley Colorado potatoes remained about unchanged, but cauliflower and Arkansas Valley onions showed strength. Local prices strengthened at New Or-

Good demand held poultry prices firm during the week, and young chickens tended higher. Some turkeys moved largely at government support prices. Eggs remained fairly steady. Seasonally best can-dle dofferings sold mostly around 50 to 55 cents per dozen, but some areas including New Orleans paid up to 60 cents or more.

EVERY EGG COUNTS

WHEN FEED IS COSTLY Now is a good time to take stock of your management program. Perhaps you're forgetting a thin! or two-things important enough to have a detrimental effect on your flock's production. Suppose we list a few of the management factors generally considered neceessary to encourage high production:

Handle Gently

Handle hens gently. Throwing hens off nests or roosts, kicking them out of the way, or any other type of rough handling will disturb production and may even stop it if hens are injured.

When in the hen house move

slowly and deliberately, without exciting flock, to avoid causing a slump in egg production. Work on a regular feeding

MICO TO HAVE HANDWEAVERS GUILD

MICO - Various articles have been appearing in the papers about the growing popularity of weaving. This is quite true, and plans are being made for the organization of the Mico Handweavers Guild. The new Mico Federal Building will have a special room to accommodate this

Each year the Guild will sponsor schools of instruction in which there will be classes in washing and carding of wool and mohair; carding of Angora rabbit fur and cotton; spinning of thread; threading of looms; rug and blanket making; weaving of materials suitable for dresses, men's suits and overcoats; tapestry weaving; finger and card weaving of belts and book markers; pillow or bobbin lace; and silk screen printing.

The first loom to be installed will be an eight-harness 45-inch

Structo. Weaving is a very fascinating hobby, and can be very profitable for hand woven articles find a ready market.

in Uvalde.

A tough and heavy Fredericksburg eleven proved they weren't the pushovers everyone thought they were last Friday night when they pushed the Hondo Owls to the limit before bowing 19-14.

The Hilltillies opened fast and strong, taking the opening kickoff and running it to the Owl 32 in two plays and chalking up three first downss in their lirst four plays. The Owds stiffened, though, stopped the advance and took over on downs.

Then the Owls opened up. Boon went 38 yards, Braden added 20, and shortly after a pass from Bradea to Mueller was good for a

Later the Owls chalked up their second score with what some observers thought the most beautiful passing play in recent yeears. J. E. Boon uncorked with a pass that estimates place at about 70 yards, diagonally across the field. Curt Braden took it going full speed and crossed the goal line to make the score 12-0. Again the kick

By The Editor -

The school buses of Medina County were at the courthouse Tuesday morning for a checkup by the department of public safety. All buses will be equipped with the newly required safety devices by the first of the year. according to the patrolman.

the men who are entrusted with the lives of our school children have a moral obligation always to tle bit more carefully than is necessary for safe operation.

On strange roads, going to and returning from athletic contests, this may involve getting home thirty minutes later than the individual driver wno wants to burn up the road. It will require that a full stop always be made when approaching a main highway, and that extreme caution be used in driving up and down hills and across blind intersections.

Would you like to be a reporter for The Anvil Herald? Yes, you. We mean everyone.

We haven't assigned you a desk in our big news room, and there isn't a staff car waiting for you when you come to work Monday. But we do need more help than

we have been getting, because we know many newsworthy events never get in the paper because no one thinks to tell us, and we just aren't able to hear everything.

Some items during the past two or three weeks have not appeared even after they have been sub-mitted, and this is due to the fact that we have been short handed while a man is in the hospital. But he will be back soon, and we'll be looking for even more news copy. If you think you don't know of any news, read over the following list of things that are always good for the paper. Then the next chance you have, telephone us or mail it in. We'll be glad to add the finishing touches, so don't worry about how to write it.

Ads Share Blame For Delinquency, Says F.B.I. Chief

DALLAS, Tex., Sept. 30 (Special).—J. Edgar Hoover, writing on juvenile delinquency in the curissue of Southwest Review published by SMU's University Press, strikes at those forms of advertising and salesmanship
"which are the sworn enemies of
truth." He urges parents to form
the first line of defense against such influences by directing the reading and other leisure-time activities of children.

"We grow so accustomed to lies, loudly and cleverly proclaimed."
the FBI chief continues, "that cur
sense of nonesty is blunted. We meet half-truths and idiotic exagerations in advertising everywhere; on the highways and in the newspapers, on the streets and in the magazines. They filter into our homes via the radio. We cannot escape them; so we accept them. Ultimately we get around to apologizing for them, saying that the end of increased distributions of the control of the tion and employment justifies the

"We have laws prohibiting the dissemination of obscene literature, but they are not effective against the lewd suggestiveness of some advertisements, comicbook pages and moving picture scenes. Obscenity in literature i a revolting spetacle of lust, easily recognizable for what it is. "This will give each producer a chance to decide whether he has received his fair share of the county allotment before the election is held," King said. *

By now, all peanut producers should have filled out a questionnaire on which they are asked to give their past acreages and other necessary information.

"It is very important," the chairman said, "that each producer fill out his questionnaire by Oct.

1, so that the county committee
can inform him of his allotment and put his name on the list of eligible voters before the election. Any vote may be challenged if the voter's name is not on the eligible list. Anyone who has not filled out a questionnaire may obtain one at the county office.

If two-thirds of those voting in the election favor quotas, farm acreage allotments and quotas will be in effect for the 1948, 1949 and 1950 crops. All peanuts produced in 1948 on a farm that is not overplanted will be eligible for a loan or other price support at 90 per cent of parity. On an over-planted farm, only excess peanuts will be eligible for a loan or other price support, and at a rate of only 54 per cent of parity. Peanuts marketed in excess of the quota will be subject to a penalty at the rate of 50 per cent of the basic loan rate in effect.

If quotas are disapproved, the only support for the 1948 crop would be a program supporting the price of peanuts at 90 per cent of the comparable oil price, which is about one-half of 90 per cent of the parity price for peanuts.

The cooperation of business men is needed as much as that of clergymen, teachers and public offi-cials, Mr. Hoover says, and he urges community-wide drives to meet the problem of juvenile de-

From where I sit ... by Joe Marsh

"It's Living That Counts"

I stole the title of this column from a magazine article that said a whole lot better than I can what farm and country life can mean.

We talk about farm profits, production, research, and mechanical improvements ... but isn't it true, what we really value is the life country living offers us? . . . the chance to be close to our families and neighbors . . . children sharing in the chores . . . working with our own hands at a worthwhile job.

And country pleasures are simple: good talk at day's end, and

a glass of mellow beer with friends ... the companionship of man and wife, unruffled by distractions of the city . . . the mutual tolerance of one another's tastes-in choos. ing a friend, or a glass of beer, or a candidate for Governor.

Mind, I'm all for material improvements. But from where I sit, the real goodness of our country life is that spirit of tolerance, moderation, and good fellowship.

THREE MORE TELL US ABOUT AD RESULTS

We have now heard of a man who ran a classified ad to sell some cows and then didn't sell them. Yes, that's right, J. D. Schweers advertised some cows for sale, and later came in to stop the ad. He didn't sell them, but he is just as well pleased because he made a trade.

From D'Hanis, Oscar Nester tells us to stop the ad on his kerosene refrigerator after one insertion, because it is sold.

And we quote from a letter received Monday.

"I am happy to inform you that the paper got here at 9:30 a.m., and I had my stove sold at 10:30 a.m., thanks to Anvil Herald and ad . . ." H. E. Wright, Castroville.

Pastry Tricks

Now that cooler weather has come, we can all indulge in a few of the richer desserts that we've been avoiding during hot, sweltering weather.

Since it's cooler

is required, and you won't mind taking the extra chill. time for their preparation.

There was a time when we thought of pie as something with a crust made of shortening, flour and water, but now there are many new crumb crusts from which to choose -and sometimes these are even better with certain types of filllings.

If you want a real taste delight, experiment with new crusts, novel fillings, and gather yourself a new and delicious collection of pastries from which to choose desserts. We all grow tired of eating the same things day in, day out, and there's so much new in the way of foods, it's just not a smart homemaker who doesn't find different touches to add to her menus.

Marshall Asks U. N. Reshuffle; U.S. Reduces Grain Exports; Tension High Throughout Italy

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

SHOWDOWN:

Russia's Choice

Secretary of State George Marshall sounded like a man who was getting a lot of things off his chest. What he said in an address before the U. N. general assembly of 55 nations amounted to a call for a showdown with Russia.

The Soviets, he intimated, have held to their stubborn, veto-bound course in the United Nations long enough.

To make the delinquents come to time, Marshall proposed a four point plan of action to the general assembly:

He suggested creation of a new assembly committee of 55 countries which would operate without veto and would remain constantly in session to consider world security questions and function as a board of appeals. Potentially, the committee would be a rival to the security

2. He announced that the U. S. was ready to relinquish, in all but the gravest cases, its veto privilege and implicitly challenged Russia to do likewise

He blamed Russia for the U. S .-3. Soviet deadlock in Korea and said that America would submit the case to the general assembly for action.

4. He blamed Russia for using vetoes to protect Yugoslavia, Albania and Bulgaria from being pronounced guilty of meddling in Greece. He said the U.S. would ask the assembly to vote guilt for the three satellites and to demand that they refrain from interfering in Greece.

Undoubtedly, it was strong medicine-too strong, according to some jittery U. N. delegates. It apparently left Russia with a choice of two possible courses: Either cooperate in the U. N. or get out of the organization.

Many feared that hard-headed Muscovites in the Kremlin would choose the latter.

PRICE BATTLE:

Exports Cut

Secretary of Agriculture Clinton P. Anderson had a "Horatio at the bridge" air about him as he announced that the government had made a drastic cut-back of grain and flour allocations for export in No-

The move generally was accounted as another noble stand against the forces which are causing domes tic food prices to spiral dizzily. This one, however, had the blessings of the grain trade as "a step in the right direction."

Reducing the export allocations for November was in line with the government's surprise revision of the nation's 1947 export goal from some 450 million bushels of grain down to 350 million.

Export officials, still striving to meet the original, higher goal, were caught flat-footed by the sudden cut-back, but it had become clear that the U.S. administration now was trying to effect a program whereby western Europe's minimum food needs could be satisfied without aggravating the inflation trend at home.

(In a significant sidelight, Anderson scoffed at the prospect of returning to rationing by pointing out that such a program could not be put into effect before the need for it would be over.)

Next move, it was hinted, would be an attempt by Secretary Anderson to put through a sharp reduction of total food exports-not just grain -as the only practical way of pulling down prices.

The U. S. state department, however, committed to its "save Europe" program, no doubt would object vehemently to any such action.

IN LOS ANGELES . Hamid Riza Pahlavi, 16, of Iran, told police that he had flown the coop from his Washington, D. C., school because it didn't have any girl students and because he was 'homeseeck."

IN ARLINGTON, VA. . . . In-mates of the Arlington county jail, righteously indignant when two fellow prisoners escaped and left them behind, pitched in and lent a hand while a locksmith put a new pad-lock on their cell-block.

Traveling Public

Americans traveled eight times as far in automobiles as in any other form of transportation during 1946, an Investors Syndicate survey has shown. Total number of passenger miles traveled by automobile was three times the total of all other forms of public transportation.

ITALY:

Trouble Grows

Italy was threatening to erupt. Communists, using Yugoslavia's Marshal Tito as their front, were trying to take over, or at least seriously harass, the recently established free state of Trieste. They also were hard at work on their campaign to seize complete power in the Italian government.

Along the Trieste-Yugoslav frontier, Yugoslav troops were threatening all of the 34 American outposts. Armed clashes were not considered impossible. Aggressive troops of Marshal Tito were forcing incident after incident along the line. Trieste itself was ugly with tension as Communists ordered 10,000 striking shipyard workers to stay out in defiance of American-British military government orders.

In Rome, Communists turned on the heat by issuing an outright demand that Premier Alcide de Gasperi resign to make way for a cabinet with Communist and left wing Socialist members.

The position of de Gasperi, who put the Communists and Socialists out of his cabinet almost four months ago, was precarious, as the Reds continued their program of strikes, instigation of social turmoil and threats of force.

U. S. officials harbored growing fears over the situation, for if the Communists were to take over Italy, heavy repercussions would be felt in France and the Marshall plan would be seriously crippled, if not wholly destroyed.

James V. Forrestal wasn't due to be sworn in as U. S. secretary of

Mr. Truman ob-

served that in view of conditions

abroad, the nation should have its secretary of defense in office and functioning. The conditions, which he did not specify, probably were the current unrest in Trieste and the U. S.-Russian stalemate in the United Nations, topped off by Secretary of State Marshall's challenging speech before the general as-

sembly. Now presiding over the unified army, navy and air forces, Forrestal is the armed forces' only representative on the President's cabinet

ropaganda is what is carrying us toward more war. it is carrying us toward communism, toward socialism, toward chaos. We can no longer find pure ideas in this world, untainted with the personal interests of their spokesmen. Every fair sized business, every organized group, every union and every government tureau has its propaganda staff, charged with the task or making the people think the way that group thinks they ought to think. When ideas are born, anywhere, they must first go to a propaganda bureau to be stripped of their universality, to be clothed in a tainted exicon and snaped to fit the interest of special groups. The people must be served-served to the vultures.

How do we recognize it? It's one sided. Every bit of news we hear about Russia is propaganda. Russia is blocking this, blocking that. Can't we realize that we are doing the same thing? The papers don't say so, nor does the radio—that doesn't fit in with the propaganda pattern. Last Friday Russia grew tired ie debates o Korea and said "Let's both get out. In mediately three senators, an ambassador, and a dozen columnists started explaining how this was a Russian plot to get us out so they could take over themselves. trucks—and trucks require roads, straight roads, wide roads, roads with safe and durable road-beds. Suca a road from Hondo to Leakey as a rink connecting U. S. with State No. 9 near Jourdan ton over 173 will become a prime essential to Hondo's development as the industrial center we all hope to see her become, placing her as it will at the cross-roads of two transcontinental highways and on the most direct route between deep vater at Corpus Christi and the ast grain and live-stock belt of

the great western plains.
And the feature of that suggest ed extension that is of first importance to Hondo is to widen North Front street as much as possible and open it at both ends as a hundred foot highway, from Lovers lane on the east to a starting point on the west for the extension to

With Hondo on the threshold of industrial development and a threat that dangerous traffic con gestion on Hizhway 90 south of the railroad may cause a by-pass to be built, we are faced with the incongruous situation of where people on the north side of the arroad must cross that track into Highway 90 or travel from half a mile to a mile north of the courthouse before they can go either east or west out of town.

Shall we remain indifferent to this vital matter and expect the industrial development of the town to advance as it would if guided by keen foresight and courageous ac-

To Hondo, at this time, there is more than a jitterbug jingle significance of the song—
"Don't Fence Me In."
Let's give Hondo room to grow!
